**Subject:** RE: PH NRRB Recs. draft 3

Earl, the first bullet of 4 on the Modeling comment: Model Domain – implies that the PRP model only looked at the lower couple of miles of the Willamette, is that correct? The lower couple of miles are not even part of the Portland Harbor Superfund Site, please clarify.

Thanks,

Steve

Earl, since you don't have access to EPA's SharePoint, here is the latest draft.
